March 5, 2018

To: Mundy Township Residents and Taxpayers,

Due to recent inquiries to the source of our water from both residents and businesses. May this correspondence serve as notice that our municipal water comes from Genesee County Water & Waste Services system, as we currently received from Detroit. The completed Karegnondi Pipeline (KWA) delivers the same Lake Huron water we currently utilized under Detroit, to Genesee County's new state-of-the-art treatment plant.

Unlike the City of Flint we have always received our municipal water from Detroit and now received water through the (KWA) pipeline.

Joe Oskey
