Township

43. Mundy Township

Mundy Township community offers a great mixture of urban and rural living, which attracts families of all shapes and sizes. The majority of residencies in the Township are owner occupied with just 10 percent renter occupied. This sense of ownership and community plays a direct role in the low crimes rates reported in 2012, including no homicides.

Mundy’s proximity to Bishop International Airport, once part of the Township but annexed by the City of Flint, provides stability for the local economy, both directly and indirectly though the many airlines, shipping companies, hotels, and other businesses directly affected by the airport’s economy.

Do you own a home in Michigan?

Yes

No
